Much work was done on the library this summer making it a much pleasanter place. New shelves were built and the room was completely repainted except for the floor. A small heater was purchased to help out with the heating problem.

Report of the Board of Education

To the Citizens of Dalton:

The school board herewith submits its annual report. The report includes the treasurer's report for the fiscal year July 1, 1955 to June 30, 1956, with a statement of expenditures; budgets and estimated receipts for the present school year and for next year; and written reports by the superintendent and the school nurse.

The budget for the coming year is of necessity higher than that of last year. This rise is due to an increase in the tuition rate at Whitefield. Tuition charges this coming year will be \$175.00 for elementary pupils and \$250.00 for high school pupils. This calls for an increase of \$3,000.00 in that budget item.

We, therefore, request an appropriation of \$36,022.13 for the support of schools for the year 1957-1958.

Respectfully submitted,

WILLIAM E. BOYLE

RITA F. BLAKSLEE

This is to certify that I have examined the books and other financial records of the School Board of Dalton, of which this is a true summary for the fiscal year ending June 30, 1956 and find them correctly cast and properly vouched.

Superintendent's Report

To the School Board and Citizens of Dalton:

It is with pleasure that I submit to you my annual report relative to your school.

There were no changes in the faculty in the school this past year. The enrollment this past year was 89 as compared to a present enrollment of 78. There are at the present time 30 pupils enrolled in the elementary grades in Whitefield and 31 in the four upper grades of the high school.

The report of school nurse will be found on separate pages of this report. Mrs. McGinley is doing an excellent job and is receiving considerable financial assistance from the Community Club. This year, through its cooperation, pupils were examined by a physician for the first time and were also given hemoglobin tests by a hospital technician. Such cooperation should not go unnoticed.

The school lunch program is being continued under the able direction of Mrs. Eleanor Bell. Practically all children are taking advantage of the program and are given hot and nutritious lunches each day during the cold part of the school year.

A major item affecting your budget for the coming year is that of increased tuition rates at the Whitefield School. Costs over the past few years have risen at a fast rate and it must be reflected in tuition rates in all towns. The increase of fifty dollars per pupil for Dalton means a total increase in tuition charges for all pupils of approximately thirty-one hundred dollars. It should be understood, however, that this present rate is not out of line with rates throughout the state.

Your school is provided with adequate supplies, text books and teaching aids. Teachers are using them to good advantage. All teachers are members of the local teachers association and the state education association and attend all meetings when possible.

Dalton is to be commended for its concern over the need for a modern and functional school building. I do not look for much relief in this area from Federal funds even though there is a bill in Congress at the present time to furnish building aid.

The statistical report and the list of tuition pupils will be found on separate pages of the report.

In closing I wish to express my sincere appreciation to the school board, teachers and citizens for their continued cooperation.

Respectfully submitted,

LESLIE S. CUMMINGS

Health Report

To Superintendent Cummings and Members of the Dalton School Board:

I hereby submit the School Nurse-Teachers' report for the year 1956.

Physician's work:

Dr. Jorge de Villafane examined sixty-two students in November.

Defects:

1. Heart cases—six. All have been referred to the family physician for verification of diagnosis and treatment if necessary
2. Tonsils and Adenoid cases—eleven
3. Gland cases—two
4. One eye case
5. One orthopedic case.

Technician's work:

Mrs. Eleanor Desjardin of the Morrison Hospital visited the Dalton School in March and did seventy-six hemoglobin tests for lack of iron in the blood. Fifteen students were found to be below normal in this respect. Parents were notified and advised to seek treatment from their family doctor. Both of these projects were financed by the Dalton Community Club.

Dental work was performed by Dr. Millard Clark of Littleton, as follows:

No. of pupils treated 76
Total number of cleanings 76
No. pupils receiving free care 20
No. pupils paying part cost 56
No. extractions of deciduous teeth 24
No. extractions of permanent teeth 15
No. fillings of permanent teeth 91
Fluorine treated 9
X-rays 10
Total number of fillings 91
No. pupils completed 34
Total number of visits 110
Supervised tooth brushing technique

The State Welfare Department matched fifty (\$50.00) dollars of the Community Club fund and the members raised the remainder with the exception of the small contributions sent in by the parents.

Dental clinic rates in New Hampshire were five dollars per hour until January 1956. Since then the rate has jumped to seven dollars and fifty cents per hour. If we hope to accomplish as much work as in past years, parents must send in larger contributions. Interest in the various money raising activities has decreased tremendously this year. Unless the Community Club has this support, it will be unable

to send each child to the clinic once a year and the sixth graders twice. For the sake of your children and this very worthy project, I hope you will renew your interest and give much more generously when solicited.

Clinical Work:

Orthopedic Clinic—One student taken to Berlin, February 21, for recommended treatment of curvature of the spine.

Physio-Therapy Clinic—Five students taken to Littleton, January 17, for recommendations of orthopedic ailments.

Polio clinics were held at Morrison Hospital in Whitefield. A total of 112 inoculations have been administered.

With the exception of four students, every child in the Dalton School has had two shots of the Salk vaccine. These clinics were sponsored by the State Health Department.

N. H. Tuberculosis Association work:

1. Patch tests in March—81 students, teachers, cafeteria supervisor
2. Chest x-ray clinic, May 11, at the Morrison Hospital—32 students and 2 teachers

School Nurse-Teachers' work:

1. Vision tests—68, defects 9
2. Hearing tests—61, defects 10
3. Heights and weights—228
4. Inspections—166
5. Urinalysis for sugar and albumin—6 tests showed albumin.

Parents were notified and advised to seek medical treatment. The supplies for this test were purchased by the Community Club.

Communicable diseases have been almost extinct this year. Two cases of impetigo is all we have on record.

In closing may I thank the teachers for their cooperation in carrying out all health projects and the outstanding interest and support of the Community Club.

Respectfully submitted,

ILSA MCGINLEY, R. N.
